HOW DO WE PLAY?

1. As the slide is projected, partners match up with each other. Each partner will need writing materials.
2. Once the timer starts, players sit back-to-back and write their list as quickly as possible.
3. Once the timer ends, players compare lists. Every time a pair has the same answer, that answer is crossed off.
4. Players earn 1 point for each unique answer. The player with the most list item remaining is the winner.

OTHER OPTIONS

No whiteboard? No problem! Simply print off the PDF version of this game and place the laminated prompts on a binder ring. You can print more than 1 card to a page if you'd like smaller cards. You can stick the cards in a **station**, use as a **"When I'm Done" activity**, or offer them during **indoor recess**. When using as a paper resource, it is necessary to have 5-minute sand timer or a stopwatch rather than the timer on the PowerPoint version.
